Hi guys,

In advance of HQ visiting on Wednesday afternoon, could you give this document a quick review and see if the info re: your matters is still accurate? I have to give a summary of the pending litigation in the Region, so I'm starting with this cross-cutting issues document we had been working on a few months ago. I figure that's as good a starting point as any, but if you have thoughts/ideas, I'm all ears!

Thanks,
Kelly
